

Garden Faery

Humboldt Succession Seed Kit

A 16 case succession planting companion, tuned for coastal Humboldt.

Is this for you?

This kit is tuned for coastal Humboldt County and similar foggy, mild summer zones (roughly USDA 9b with strong marine influence). Inland gardeners can still use the case structure, but you will want to shift sow dates earlier and swap in more heat loving summer crops. Warm season fruits like tomatoes, peppers, and melons are not in this box on purpose. They get one time starts under cover here, not succession.

What's inside

Case Index	The master map. All 16 cases, what goes in each, and where to re sow.
Seed Inventory	Filter by case to load a physical box. Pre filled with my picks. Edit as you like.
This Week	Opens with today's date and tells you which case to pull. Live formula, always current.
Case Labels	Print, cut, tape. One label per clear case. The whole kit, labeled in under ten minutes.
Credits & Sources	Where to buy the seed. Eight trusted sources with notes on why I use each one.
Harvest Log	Track what you sowed, what came up, and when. Builds your own data year over year.

How to use it

- 1 Grab a 16 compartment photo storage case. Any craft store or online.
- 2 Print the Case Labels tab. Cut and tape one label to each small case.
- 3 Sort your seed packets into the matching case. First time takes maybe thirty minutes.
- 4 Open the This Week tab. It tells you which case to pull today.
- 5 Pull that case. Plant what's inside. Log what you sowed in Seed Inventory or Harvest Log.

6

Put half full packets back in the case. Move the case to the back of the carrier

7

Come back in two weeks. The system will know what to pull next

Want it ready to garden, not ready to sort?

The full physical kit ships with a 16 compartment case, seed packets sorted and labeled for every window, and a printed quick start card. Zero setup, just open and sow. Available at gardenfaery.love/kit.

Case Index

The master map. Pull one case per two week window.

Case	Sow Window	Theme	Crop Mix	Re sow Pointer	Humboldt Notes
1	Feb 1	Cold hardy openers	Snap peas, fava, spinach, mache, claytonia	Peas and fava, one time sowing. Spinach, re sow Case 3.	Fog belt loves cold hardy greens. Direct sow peas once soil is workable.
2	Feb 15	First lettuce wave	Lettuce, radish, arugula, cilantro, early brassica starts indoors	Lettuce, re sow Case 4. Radish, re sow Case 4. Cilantro, Case 5.	Start broccoli and cabbage under lights. Direct sow cold tolerant greens.
3	Mar 1	Spring greens rolling	Lettuce, spinach, scallions, arugula, more peas	Lettuce, Case 5. Spinach, Case 6. Scallions, Case 6.	Peak spinach season begins. Second pea planting for staggered harvest.
4	Mar 15	Root and brassica push	Lettuce, carrots, beets, chard, kale starts, radish	Lettuce, Case 6. Carrots and beets, Case 6. Radish, Case 5.	Transplant early brassicas out. Direct sow roots in warmed beds.
5	Apr 1	Warm side prep	Lettuce, radish, dill, bush beans indoor start only, cilantro	Lettuce, Case 7. Radish, Case 6. Dill, Case 8. Cilantro, Case 7.	Too cool for direct beans at the coast. Start indoors or under cover.
6	Apr 15	Carrot and beet round two	Lettuce, carrots, beets, scallions, cilantro, chard	Lettuce, Case 8. Roots, Case 8. Scallions, Case 8.	Marine layer keeps soil cool, perfect for roots. Lettuce thrives here.
7	May 1	Bean and squash debut	Bush beans, cucumbers, summer squash starts, lettuce, basil indoor	Beans, Case 9. Lettuce, Case 9. Squash, Case 9.	Warm crops need hoop house or greenhouse here. Direct sowing beans is risky.
8	May 15	Full spring rotation	Beans, lettuce, carrots, beets, more basil, dill	Beans, Case 10. Lettuce, Case 10. Roots, Case 10.	If a warm week hits, push beans outside. Otherwise stay patient.
9	Jun 1	Summer succession peak	Beans, lettuce, cilantro, dill, summer squash round two	Beans, Case 11. Lettuce, Case 11. Cilantro, Case 11.	Solstice window. Cool summer means lettuce still works, no bolting.
10	Jun 15	Mid season hold	Beans, carrots, beets, lettuce, scallions	Beans, Case 12. Lettuce, Case 12. Roots, Case 12.	Coastal advantage. Inland gardens are cooking, we are still sowing lettuce.

Case Index

The master map. Pull one case per two week window.

Case	Sow Window	Theme	Crop Mix	Re sow Pointer	Humboldt Notes
11	Jul 1	Fall pivot begins	Beans, lettuce, radish, cilantro, fall brassica starts	Beans, Case 13. Lettuce, Case 13. Brassica starts, transplant Case 13.	Start fall brassicas indoors now. They need 8 to 10 weeks before transplant.
12	Jul 15	Fall brassica bench	Lettuce, carrots, beets, fall broccoli, cabbage, Brussels starts	Lettuce, Case 14. Roots, Case 14. Brussels, transplant Case 14.	Peak fall start window. Brussels wants the long coastal season, start now.
13	Aug 1	Transition to fall	Lettuce, spinach, radish, scallions, fall peas, overwintering brassicas	Lettuce, Case 15. Spinach, Case 15. Scallions, Case 15.	Fall pea window opens. Spinach comes back as temperatures ease.
14	Aug 15	Overwinter prep greens	Spinach, lettuce, Asian greens, cilantro, overwintering kale	Spinach, Case 16. Lettuce, Case 16. Asian greens, Case 16.	Sow overwintering kale now for harvest Dec through March. Coastal winters are mild.
15	Sep 1	Garlic and allium drop	Garlic cloves, shallots, overwintering onions, fava, mache, claytonia	Garlic and shallots, one time sowing. Fava, harvest Apr to May.	Humboldt's long fall wants garlic in early. Clove side up, 4 to 6 inches deep.
16	Sep 15	Cover crop and close out	Crimson clover, vetch, bell beans, winter rye, cover crop mixes	Cover crops, one time sowing. Cut down in spring before they set seed.	Empty beds get cover. Choose vetch and rye for nitrogen plus biomass.

Seed Inventory

Filter by Case to load a physical box. Update varieties and sources as you buy. Blank rows at the bottom are yours to fill.

Case	Crop	Variety	Source	Packet Year	Days to Harvest	Next Sow Date	Re Sow Interval (days)	Notes
1	Snap peas	Sugar Ann	Territorial		52			Trellis 4 to 5 feet. One planting.
1	Fava beans	Broad Windsor	Bountiful Gardens		75			Also fixes nitrogen. Cut at flower for cover.
1	Spinach	Bloomsdale Long Standing	Johnny's		45		14	Direct sow, thin to 4 inches.
1	Mache	Vit	Adaptive Seeds		60			Cold hardy, bolt resistant.
1	Claytonia	Miner's Lettuce	Uprising Seeds		55			Self sows. Native coastal green.
2	Lettuce	Merlot red leaf	Johnny's		55		14	Heat tolerant, runs into later cases.
2	Lettuce	Salanova mix	Johnny's		55		14	One cut harvest. Easy for clients.
2	Radish	French Breakfast	Territorial		28		14	Quick turn. Never skip a radish case.
2	Arugula	Astro	Johnny's		35		14	Direct sow. Slow to bolt in fog.
2	Cilantro	Santo	Botanical Interests		50		21	Bolt resistant. Coastal loves it.
2	Broccoli start	De Cicco	Uprising Seeds		60			Start indoors, transplant Case 4.
2	Cabbage start	Early Jersey Wakefield	Territorial		65			Start indoors, transplant Case 4.
3	Lettuce	Jericho romaine	Johnny's		55		14	Holds well into warmer weeks.
3	Spinach	Space	Johnny's		40		14	Slow to bolt. Good spring variety.
3	Scallions	Evergreen Hardy White	Territorial		65		21	Bunching, no bulb. Continuous cut.
3	Arugula	Astro	Johnny's		35		14	Second wave.
3	Peas shelling	Green Arrow	Territorial		70			Second pea planting for stagger.
4	Lettuce	Nevada batavian	Johnny's		48		14	Heat tolerant batavian.
4	Carrots	Nantes	Territorial		62			Loose, deep beds. Thin ruthlessly.
4	Carrots	Cosmic Purple	Botanical Interests		70			Fun color for farmers markets.
4	Beets	Detroit Dark Red	Territorial		60			Reliable workhorse.
4	Beets	Chioggia	Johnny's		55			Pink and white rings inside.
4	Chard	Bright Lights	Johnny's		55			Rainbow stems. Holds through summer.
4	Kale start	Lacinato (dinosaur)	Uprising Seeds		60			Transplant out in 4 weeks.
4	Radish	Easter Egg	Johnny's		30		14	Mix of colors. Crowd pleaser.
5	Lettuce	Buttercrunch	Territorial		55		14	Classic butterhead.
5	Radish	Cherry Belle	Botanical Interests		24		14	Round red. Fastest radish.
5	Dill	Bouquet	Johnny's		55		21	Heads and foliage. Succession every 3 weeks.
5	Dill	Fernleaf	Territorial		60		21	Compact, for container or edge.
5	Bush bean start	Provider	Johnny's		50			Start indoors. Transplant when warm.
5	Cilantro	Santo	Botanical Interests		50		21	Succession.
6	Lettuce	Red Sails	Territorial		50		14	Loose leaf, slow bolt.
6	Carrots	Napoli	Johnny's		58			Sweet, short nantes.
6	Carrots	Yaya	Johnny's		58			Uniform, good storage.
6	Beets	Golden	Adaptive Seeds		55			No bleeding. Kids like them.
6	Scallions	Deep Purple	Johnny's		60		21	Purple bases, great color.
6	Cilantro	Calypso	Johnny's		50		21	Very slow to bolt.
6	Chard	Fordhook Giant	Territorial		55			Green, classic workhorse.

Seed Inventory

Filter by Case to load a physical box. Update varieties and sources as you buy. Blank rows at the bottom are yours to fill.

Case	Crop	Variety	Source	Packet Year	Days to Harvest	Next Sow Date	Re Sow Interval (days)	Notes
7	Bush beans	Provider	Johnny's		50		21	Direct sow only if soil is warm. Hoop house helps.
7	Bush beans	Jade	Johnny's		55		21	Long slender pods. Heat tolerant.
7	Cucumber start	Marketmore 76	Territorial		65			Hoop house only on the coast.
7	Cucumber start	Lemon	Uprising Seeds		65			Small round, sweet. Heirloom.
7	Summer squash start	Zephyr	Johnny's		54			Bi color. Hoop house or warm spot.
7	Zucchini start	Dark Star	Adaptive Seeds		50			Coastal tolerant.
7	Lettuce	Black Seeded Simpson	Botanical Interests		45		14	Old reliable. Fast.
7	Basil start	Genovese	Johnny's		68			Indoor start only. Needs warmth.
8	Bush beans	Royal Burgundy	Territorial		55		21	Purple pods, turn green when cooked.
8	Lettuce	Little Gem	Johnny's		45		14	Mini romaine. Fast and crunchy.
8	Carrots	Mokum	Johnny's		54			Extra sweet small nantes.
8	Beets	Bull's Blood	Territorial		55			Dark leaves double as salad green.
8	Basil	Sweet Italian	Territorial		68			Direct sow only if soil hits 60F+.
8	Dill	Dukat	Johnny's		55		21	Slow bolt. Good for leaves.
9	Pole beans	Kentucky Wonder	Territorial		65			Trellis. Long season producer.
9	Lettuce	Summertime	Johnny's		55		14	Best bolt resistance in the lineup.
9	Cilantro	Santo	Botanical Interests		50		21	Keep it going all summer at the coast.
9	Dill	Bouquet	Johnny's		55		21	Succession.
9	Summer squash	Costata Romanesco	Adaptive Seeds		60			Italian heirloom. Ribbed, great flavor.
10	Bush beans	Contender	Territorial		50		21	Earliest bush bean. Cool tolerant.
10	Carrots	Scarlet Nantes	Botanical Interests		65			Classic. Reliable anywhere.
10	Beets	Early Wonder Tall Top	Johnny's		50			Roots plus big greens.
10	Lettuce	Muir	Johnny's		55		14	Most heat resistant summercrisp.
10	Scallions	Nabechan	Johnny's		60		21	Japanese type. Tender and sweet.
11	Bush beans	Provider (final sowing)	Johnny's		50			Last bean window for fog belt.
11	Lettuce	Winter Density	Territorial		65		14	Cold hardy romaine.
11	Radish	Watermelon	Botanical Interests		65			Large, pink inside. Fall storage.
11	Cilantro	Santo	Botanical Interests		50		21	Keep sowing.
11	Broccoli start	Belstar	Johnny's		65			Fall transplant Case 13.
11	Cabbage start	Brunswick	Uprising Seeds		85			Overwintering type. Transplant Case 13.
11	Kale start	Winterbor	Johnny's		60			Ruffled, extremely cold hardy.
12	Lettuce	Red Sails	Territorial		50		14	Succession.
12	Carrots	Bolero	Johnny's		75			Best storage carrot. Overwinters.
12	Beets	Detroit Dark Red	Territorial		60			Storage. Mulch heavy for winter.
12	Broccoli	Di Cicco	Uprising Seeds		60			Side shoot producer. Long season.
12	Cabbage	Tendersweet	Johnny's		71			Fall harvest, stores well.
12	Brussels start	Diablo	Johnny's		110			Long season. Transplant Case 14.
12	Brussels start	Long Island Improved	Botanical Interests		110			Heirloom. Frost sweetens sprouts.

This Week

Live pointer based on today's date. Open this first thing.

Today	Friday, April 17, 2026
Pull this case	Case 6, Apr 15, Carrot and beet round two

The pill organizer method

1	Open this tab. Note the case to pull.
2	Pull that physical case from the carrier.
3	Plant everything inside, or start trays for indoor start crops.
4	For crops that re sow on interval, put a sticky note in the next target case.
5	Empty packets go in the holdout bin. Half full packets go back in the case.
6	Log what you sowed in the Seed Inventory and Harvest Log tabs.
7	Close the carrier. Done until the next window.

Coastal reminder

Humboldt's marine layer means warm crops like tomatoes, peppers, melons, and corn do not belong in this succession box. They get one time starts under cover. This kit is tuned for cool season rhythm. Greens, roots, brassicas, peas, beans, alliums, and cover crops.

Case Labels

Print, cut on the border lines, tape one to each clear case.

Where to buy the seed. These are the companies I actually use, not affiliate links.

Source	Website	Region	Why I use them
Johnny's Selected Seeds	johnnyseeds.com	Maine	Gold standard for market growers. Trial data, honest descriptions, excellent germination.
Territorial Seed Company	territorialseed.com	Oregon	Pacific Northwest tested. Many varieties bred for cool, coastal conditions like ours.
Uprising Seeds	uprisingorganics.com	Washington	Small, organic, open pollinated only. Beautiful catalog from a trusted regional farm.
Adaptive Seeds	adaptiveseeds.com	Oregon	Seed stewards. Region adapted rare and heirloom varieties with a conservation mission.
Botanical Interests	botanicalinterests.com	Colorado	Gorgeous packet art, thoughtful growing notes. Widely available in stores if you need a quick refill.
Bountiful Gardens	bountifulgardens.org	California	Open pollinated heirlooms, strong bean and grain selection.
Filaree Garlic Farm	filareefarm.com	Washington	The garlic source. Certified organic, 100+ varieties, pure stock.
Peaceful Valley (Grow Organic)	groworganic.com	California	Cover crop seed in quantity, plus bulbs, tools, amendments. One stop for fall cover.

Garlic and cover crop seed do best ordered in summer for fall delivery. For everything else, January or February ordering keeps you stocked for the whole year.

Harvest Log

What you sowed, what came up, when you picked. Your own data, year over year.

Tip: log it the day you sow, then circle back to III in germination and first harvest. Next year you'll know exactly which varieties earned their space.
